

New York November 10/06

Dear friends and fans of mine

I write this to acknowledge ~~you~~ that

I have now left the band.

It has been awhile since I last worked with the boys, that was in June 2005.

~~Then~~ we worked together in Amsterdam on Xenakis interludes with Eiríkur Orri. We did play a few shows, little tours last autumn and winter. My last performance with the band was 7th January this year in Iceland when we played at the Hættu! concert. I did not work with the boys on the ~~band's~~ band's next album and do not appear on it.

So this acknowledgement is maybe being written short of late, I know mine friends have been wondering about my position in the band now for awhile. I'm sorry ~~we~~ haven't informed ~~you~~ about this earlier. I guess it has been so very personal, my other two attempts to write such an announcement last spring and this summer ended filling many pages of reasons and emotions.

So I await next min album with
just as much curiosity as anyone!
And on the 17th november min will
perform at the Sugar cubes birthday
concert, for the first time as a full
band without me. but I know that
very good friends ~~all~~ talented people ~~are~~
make up the new line-up and I'm sure
they bring ~~new~~ new and exiting energy
- to the band. I wish I could go
see and hear! But now, I live faraway
from them.

Thankyou all for goodtimes shared
and wonderful adventures through the years

Bless Bless
